Communications Specialist

Membership Appreciation Dinner

Save the Date!

Mark your calendar for Sunday, November 16th, to attend the annual membership appreciation dinner hosted by the Unemployment Compensation Trust. We are excited to announce this year's membership appreciation dinner will be held at one of Nashville's most popular venues which is enriched with history and the traditions of country music -the Country Music Hall of Fame! The program we have planned for this year will give you the complete "Music City" experience. We will be sending out all the exciting information about the dinner in August so that you can register your school board members and staff. As always, this event is free to our members. We hope to see you there.

Hardiman Joins UCT Staff

We are pleased to announce our newest team member, Meagan Hardiman. Hardiman will be the Communications Specialist for the UCT. She will be working on a new program to be launched later this fall which will recognize employees in the school systems in Tennessee. She will also be assisting with all the communications for the UCT, including news releases and newsletters.

Hardiman graduated in May from Middle Tennessee State University with a Bachelor's of Science in Mass Communications. While in school, she held numerous leadership positions, including Vice President of Chi Omega and fund raising chair for the All Greek Council. Hardiman graduated from Columbia Central High School in 2004.

"I am excited to be part of such a great organization," Hardiman said. "I am looking forward to the opportunity to be involved in the development and operation of a new program to recognize school employees, and help them find ways to make a difference in the lives of students," she added.

Employee Development Program

The Trustees of the Unemployment Compensation Trust voted to create an employee development program to help our member boards ensure that in their schools there is a climate where employees thrive, produce high quality work, enjoy their work, feel appreciated and want to remain. The program is designed to help with the working environment for your employees and ultimately make a difference in the lives of the children that you teach. Soon we will send information to your schools about a video and writing competition that will be used to create a resource library for your schools. The program will have designated recognition days beginning this fall. We look forward to working with your system to develop the program.
